

AZIZ ZOOMKHAWALA

FULL-STACK WEB DEVELOPER

PROFILE

A Software Developer currently pursuing an MCA degree from VES Institute of Technology. Developed functional, clean, and maintainable web and mobile applications across the stack using JavaScript, React/React Native, Node.js, Express, and basic Spring Boot.

Developed multiple hackathon projects involving AI/ML integrations, REST APIs, Blockchain, and relational database integration using MySQL and always eager to learn new technologies.

Seeking opportunities to apply my technical expertise in developing impactful solutions within a dynamic tech environment.

EDUCATION

- Masters of Computer Applications** SEP 2025 - JULY 2027
Vivekanand Education Society's Institute of Technology (VESIT)
 - Completed First Year with Average SGPA of 8.57
- Bachelor of Computer Applications** AUG 2021 - JULY 2024
Thakur Polytechnic
 - Passed with CGPA of 6.46

PROJECTS

- HabitCraft**
MCA Final Year Project
 - A gamified habit-tracking mobile app with streaks, rewards, and progress analytics. Developing using the MERN stack with React Native, ensuring scalable and efficient performance.
- TraceFund**
Genesis Hackathon
 - Built a decentralized crowdfunding app on Solana that ensures 100% transparency through immutable on-chain records and cryptographic proof of contribution.
- OpsAgent**
Invictus Hackathon
 - An AI-driven headless ERP that enables shopkeepers to manage sales and inventory via natural language WhatsApp messages. Engineered using Python (Streamlit), Google Gemini 1.5 and Twilio.

CERTIFICATIONS

- AWS Academy Graduate - Machine Learning Foundations**
 - Gained a strong foundation in ML concepts & AWS cloud-based tools
- Participated in multiple Hackathons**
 - Including Genesis 2026, Invictus 2026, Build-it On, Innov8 of Pixels
- Forge Software Engineering Virtual Experience Programs**
 - Completed virtual job sim programs by Skyscanner & Electronic Arts.
